

# UltraShot™ Exothermic Welding Provides Dramatic Labor Savings!

Both traditional Ultraweld and Harger's new UltraShot exothermic welding systems provide superior grounding connections that last the lifetime of the grounding system. A major benefit of the new UltraShot process is that the installation time is **40% to 50% faster** than the traditional exothermic welding process!

## ULTRAWELD **ULTRASHOT™** Create the perfect connection everytime . . . Safely **HAS ARRIVED!**

## UltraShot™ Welding Process Time Savers:

**UltraShot Integrated Weld Metal Container saves time with mold preparation**

- No separate disk to install
- No weld metal to pour into mold
- No starting powder to pour into mold and onto the mold cover

**UltraShot Controller provides instantaneous reaction**

- No flint igniter required

**UltraShot Reaction produces less slag and results in a cleaner mold**

- Significantly reduces time required to clean mold after connection is complete
- Produces cleaner welds

## UltraShot™ Provides Real Labor Savings (\$):

**Time studies reveal DRAMATIC TIME SAVINGS:**

- Experienced Users: 40% time savings
- Novice Users: 50% time savings

Labor Rate (\$/hr)	Savings (\$) at 40% (\$/hr)	Savings (\$) at 50%
\$20	\$8	\$10
\$45	\$18	\$22.50
\$60	\$24	\$30
